

PRODUCT FEATURES

# UB280

The UB280 is a compact, high-intensity LED safety beacon built for demanding emergency and hazard environments. Offering 360° visibility and multiple flash modes, it delivers dependable, versatile illumination where safety and clarity are critical.

## Key Features

- ✓ Flash or steady-on operating modes
- ✓ Single-colour, state-of-the-art LEDs for high visibility output
- ✓ Fluoro-coloured body with reflective strip for enhanced visibility
- ✓ Clear Fresnel lens with high-performance 360° light distribution
- ✓ No disruption to night vision, point fixation, or distance judgement

|       |                     |
|-------|---------------------|
| UB280 | Flash and steady on |
| UB281 | Flash only          |
| UB282 | Steady-on only      |
| UB283 | Dual colour flash   |

## Specifications

|              |                                      |
|--------------|--------------------------------------|
| Height       | 15cm (6")                            |
| Weight       | 240g                                 |
| Rating       | IP66                                 |
| Battery type | 4 x AA-cell (not included)           |
| Battery life | 30-40 hours                          |
| Flash Rate   | 165-185 FPM                          |
| Peak Candela | 70 to 85 cd                          |
| No. of LEDs  | 8 (up to 16 avail. as special order) |
| Colours      |                                      |

## Accessories

**CONE CLIP**  
Secure vertical positioning for traffic cones

**AVIATION BASE MOUNT**  
Higher mounting teeth for use in aviation (high wind usage)

**MAGNETIC SIDE CLIP**  
Side mounting on most metallic objects

**MAGNETIC BASE MOUNT**  
Mount securely to metallic objects rated to 80kmph

**RUBBER BASE MOUNT**  
Popular base for road use or flat surfaces

**RAIL BASE MOUNT**  
Secure magnetic mount for the rail industry

Dual colour flash options are available on all Eflare products

# OUR ACCESSORIES

## Versatile mounting and deployment methods

Our range of accessories are designed to enhance safety and performance in various conditions. They offer reliable solutions to meet the demands of different applications.

### MAGNETIC CLIP

Provides a versatile magnetic mounting solution. Perfect for metal surfaces, it ensures quick & secure placement in dynamic environments.

### RUBBER BASE MOUNT

Provides a secure, stable platform for Eflare beacons on flat surfaces. It's durable rubber construction enhances grip and prevents movement.

### AVIATION BASE MOUNT

Designed specifically for planned and emergency aviation situations. Its sturdy build maintains stability in high wind environments.

### MAGNETIC BASE CAP

With a strong magnetic base it is ideal for metal surfaces and ensures stable positioning in various settings. Suitable for vehicle mounting up to 80KPH.

### CONE CLIP

Provides a reliable attachment for Eflare beacons to traffic cones. Its durable clip design ensures secure mounting in roadside and event applications.

## COMPATIBLE WITH ALL VARIANTS OF EFLARE

All Eflare accessories are fully compatible with the entire range of Eflare beacons. This ensures consistent usage, seamless integration and reliable performance across all variants.
